

120181 Tork Universal Hand Towel C Fold

Reliable and well known system
Covers your basic needs

Product data

Article No	120181
int. Name	Tork Universal Hand Towel C Fold
nat. Name	Tork Univ Hand Towel C fold
Mill	Kostheim
Customs number	48182099
Layers:	1
Grammage:	39.5 [g/m ²]
Fibre type	Recycled
Print	No
Length Unfolded:	31 [cm]
Length Folded	10 [cm]
Width Unfolded:	25 [cm]
Colour	Nature
Brightness	53 [%]

Consumer unit specifications

Pcs/ con:	192
Gross weight/con	0.5948 [kg]
Net weight/con	0.5878 [kg]
Packaging:	Banderole
EAN Con:	7322540365177

Transport unit specifications

Packaging trp	Plastic
Con/Trp:	24
Length, trp:	600 [mm]
Width, trp:	400 [mm]
Height, trp:	253 [mm]
Volume, trp:	0.06072 [m ³]
Gross weight, trp:	14.327 [kg]
Net weight, trp:	14.107 [kg]
EAN Trp:	7322540365184

Pallet specifications

Trp/Pallet:	28
Layers/Pallet:	7
Volume, pallet:	1.7 [m ³]
Height, pallet:	1921 [mm]
EAN Pallet:	7322540366013

Environmental information

Recycled fibres
Chemicals

Recycled fibres

Recovered paper can be produced both from collected newsprint, magazines and office waste. The paper is washed with water and treated with chemicals under high temperature and then filtered. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important.

The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the

fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching; ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view .

The used functional chemicals are:

Wetstrength agent
Dry strength agent
Dye = if coloured
Fixing agents
Fluorescent whitening agent
Glue = if used

The process chemicals are:

Antipitch
Protection agent
Yankee coating
Defoamer
Dispersing agents and surfactants
pH and charge control
Retention aids
Broke treatment chemicals
Drainage aid

Packaging

Fulfillment of Packaging and Packaging Waste Directive (94/62/EC): Yes

Environmental label = Ecolabel

This product does not have any ecolabel.

Date of issue 2007-11-06

Revision date 2009-07-23

SCA Hygiene Products AB, 405 03 Göteborg, SE

This product is produced at Kostheim mill, Germany, and certified according to ISO 9001:2000, ISO 14001 and EMAS.

This product is mainly used for personal hygiene and can be collected together with household waste.
